

Grid element 8

Article number: 20001713

Series: Grid

Product description

Grid element 8 is made of concrete and has a radius of 1500 mm. With the element, an **angle of 90°** can be realized. This element has a **wooden seat** with a **backrest**. The wooden seat and backrest are rounded at the ends. This provides a chic appearance and increased seating comfort. The wooden backrest and the wooden seat are connected to each other using a **finger joint**. As a result, the backrest and seat run seamlessly into each other. On top of that, the wooden beams **taper off**, so that the seam between the wooden beams is the same in every place. These details make the Grid series one of Grijssen's **highest quality** series. The element can be coupled with the other nine elements of the Grid series.

Endless combinations

The seating elements in the Grid series are special. The bench series consists of a combination of **wood** and **concrete** and has a solid appearance. Within the series, several elements can be linked. Think of straight seating elements, with/without backrest and curved elements. Everyone has **the choice of** what the bench should look like. With all these options, the combinations are endless.

Materials

100% FSC-certified wood is used in the production of the seat. This means that the wood was harvested sustainably and responsibly. The hardwood used comes from the highest durability class. This means that the wood has a long life and will therefore last for years in public spaces. The wooden seat is placed on a concrete element. The concrete has a natural gray color.

Extra information

Length	1500 mm
Width	560 mm
Angle	90°
Height from ground level	865 mm
Material seat surface	FSC 100% hardwood untreated, durability class 1
Wood dimensions	90 mm x 90 mm
Material frame	Concrete, natural grey
Linkable	Yes
Weight excl. concrete base	928 kilogram
Including concrete base	No
Installation	- at ground level - below ground level
