

Pure pouf (350)

Article number: 20001060

Series: Pure

Product description

Small, but **robust**. That is the Pure pouf 350. With its 350 millimeters, the pouf is the smallest element in the Pure series. It is a beautiful solution to give a **playful twist** to the public space. The **cube-shaped elements** can be placed both separately and in a group. Because each pouf is mounted separately, the groups of poufs can be placed in any desired arrangement. In addition, the poufs can be combined well with the other furniture in the Pure series.

A pouf provides seating for one visitor to the public space. Because the pouf has the same dimensions on all sides and is not equipped with a backrest, it is possible to sit down at any side. Also for the Pure pouf, Grijssen deliberately chose 100% FSC certified **domestic Douglas** trees from the forests of the Dutch Forestry Commission. The base is made of hot-dip galvanized steel. The steel is provided with a two-layer powder coating in a RAL color of choice.

Features

- The stored CO₂ remains captured
- Made from FSC-certified native wood
- The natural look

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijssen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** remains captured. in the wood.

Material

The Douglas wood has had a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3.

Extra information

Length

350 mm

Width

350 mm

Height from ground level

460 mm
