

Edge 1800

Article number: 20001593

Series: Edge

Product description

The Edge 1800 is the smaller variant within the Edge bench series. Even though this bench is shorter, its special shape is immediately noticeable. The steel frame is subtly visible through the slats. This makes it look as if the backrest is divided into two parts. The use of wood gives a warm appearance to this outdoor bench and invites you to sit on it. The rounding of the wooden beam at the top and near the seat creates a beautiful flowing line.

Features

- Sleek design
- Warm appearance
- Floating effect

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Extra information

Length:

1800 mm

Width:

691 mm

Height seat (from ground level):

460 mm

Height (from ground level):
