

Tail (large backrest)

Article number: 20001055

Series: Tail

Product description

In this version of Tail, the backrest ensures that the bench becomes a tall and imposing object in the public space. The high backrest also ensures privacy, since one cannot see who is sitting on the other side of the bench. The length of this Tail is variable and even a plant bench can be integrated. The Tail is a spatial, prominent, and architectural object in itself and comes into its own in large squares or long boulevards. The social function of relaxing and meeting is combined with a creative urban design accent.

Features

- Suitable for busy places
- Integration of a planter possible
- Length is variable

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Extra information

Material frame

Steel, 10 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)
