Materials

The Retro lounge set is made of steel and wood. The steel is hot-dip galvanized and provided with a two-layer powder coating in a RAL or AKZO color of choice. As a result, the lounge set, like the other products, will last a long time in public spaces. The seat, armrests, and tabletop are finished with hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood was harvested sustainably and responsibly.
