

Pure picnic set II

Article number: 20002269

Series: Pure

Product description

The Pure picnic set II is a picnic set with a **natural look**. The picnic set consists of long two benches and a picnic table. Unique to the picnic sets in the Pure series is that the picnic set fits in both **urban** and **natural environments**. The **robust** picnic set is a long variant of the Pure picnic set III. The picnic set has a length of three meters, so it offers **enough seats** for a larger group of people. Since this picnic set consists of separate elements, it is possible to provide one or both benches with a backrest. This allows one to sit at the picnic table even more comfortably. This picnic set combines well with the other products in the Pure series.

Features

- Natural look
- CO₂ remains stored in the wood
- Suitable for both green and urban environments

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijssen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** thus remains stored in the wood.

Material

Douglas has undergone a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3. The **lifespan** even **equals** the **growth period** of the tree.
