

Pure picnic set III

Article number: 20002659

Series: Pure

Product description

The Pure picnic set III is a picnic set with a **natural look**. The picnic set consists of two modest benches with a picnic table. A unique feature of the Pure series picnic sets is that the picnic set fits into both **urban** and **natural environments**. This picnic set is a **short version** of the Pure picnic set II. With a length of one and a half meters, the picnic set is easier to place in an outdoor space than its big brother. The Pure picnic set III has the same advantages as the other benches in the Pure series: **robust, honest, and solid**. Since this picnic set consists of separate elements, it is possible to provide one or both benches with a backrest. This makes it even more comfortable to sit at the picnic table. This picnic set is also good to **combine** with other products from the Pure series.

Features

- Natural look
- CO₂ remains stored in the wood
- Suitable for both green and urban environments

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijssen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** thus remains stored in the wood.

Material

Douglas has undergone a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3. The **lifespan** even **equals** the **growth period** of the tree.
