

Pure Eco picnic set III

Article number: 20002660

Series: Pure

Product description

The Pure picnic set III is a picnic set with a **natural look**. The picnic set consists of two modest benches with a picnic table. A unique feature of the Pure series picnic sets is that the picnic set fits into both **urban** and **natural environments**. This picnic set is a **short version** of the Pure picnic set II. With a length of one and a half meters, the picnic set is easier to place in an outdoor space than its big brother. The combination of wood and **corten steel** emphasizes the natural character of this picnic set. Since this picnic set consists of separate elements, it is possible to add a backrest to one or both benches. This makes it even more comfortable to sit at the picnic table. The picnic set is easy to **combine** with other products from the Pure Eco series.

Features

- Natural look
- CO₂ remains stored in the wood
- Suitable for both green and urban environments

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijssen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** thus remains stored in the wood.

Material

Douglas has undergone a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3. The **lifespan** even **equals** the **growth period** of the tree.

Extra information

Length	1450 mm
Width	1420 mm
Height from ground level	800 mm
Material seat surface and table top	Preserved Dutch douglas wood
