

Plane with backrest

Article number: 20001628

Series: Plane

Product description

The Plane with a backrest tree bench is based on the design of the standard **Plane outdoor benches**. The characteristics of the Plane outdoor benches are therefore reflected in the Plane tree bench. The bench is **robust** and can take a beating. In addition, the tree bench with its appearance fits into almost any environment. This Plane tree bench is equipped with a comfortable backrest. The backrest is at an **oblique angle to the seat**, making it more comfortable to sit against. The warm and tranquil look ensures that this tree bench lets the tree be the focal point of the public space.

Characteristics:

- Suitable for any outdoor space
- Additional seating comfort through the backrest
- Efficient filling of outdoor space

Suitable for any outdoor space

The Plane tree bench with backrest can be combined with the standard Plane outdoor benches and picnic sets from Grijssen. Because of that, the public space can be equipped with furniture in the same style, which benefits the appearance and recognisability of the public space. A big advantage of a tree bench is that it is possible to sit in natural shade, created by the tree.

Grijssen understands that every tree and every public space is different. Therefore, it is possible to adjust the dimensions of

the tree bench as desired. In this way, we create a suitable tree bench for every location.

Materials

The tree bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the tree bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood was harvested sustainably and responsibly.

Extra information

Material frame

Steel tube 100 mm x 100 mm x 3 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)
