

Retro

Article number: 50001033

Series: Retro

Product description

The **Retro bollards** are bollards with **style**. The bollard comes from the Retro series which was specially designed for a project in the German village Alpen. The round shapes from this series are also reflected in the design of the Retro bollard.

With the bollard from the Retro series, pedestrians are protected from motorized traffic on the site. The bollards are therefore not only **stylish** but also very **functional**! This post is available in a **fixed** and **removable** version.

In addition to the drop-off pole, the Retro series also includes a bench, bicycle rack, coffee table, and lounge set.
