

Wenters

Article number: 20000041

Series: Wenters

Product description

The 'Wenters' (dialect for Winterswijk) bench is a popular model. The first model was developed in 1998 for the redevelopment of the market in Winterswijk. The first example can still be found in the same place over twenty years later. The solid sofas in this series are an elegant and powerful appearance. The success is partly determined by the undulating and ergonomic shape of the seat, which makes the sofa wonderfully relaxing.

Characteristics:

- Ergonomic design
- A real Winterswijk bench!
- Efficient filling of outdoor space

These steel Wenters tree benches have a modern look. The design of the tree bench is based on the design of the Wenters outdoor benches. The Wenters benches are therefore easy to combine in one public space. The benches fit together, making the public space radiate unity. The bench can also be equipped with a backrest.
