Product description

The Cruzado **tree benches** are beautiful tree benches for locations where street furniture should **not be dominant**. The Cruzado of steel is always present in the background. The Cruzado bench 'disappears', as it were, into its surroundings and therefore fits perfectly into any outdoor space. As the design for the Cruzado tree bench is **based** on the design of the **Cruzado outdoor benches**, both Cruzado products complement each other well in public spaces. The Cruzado tree benches are available both **with and without a backrest**.
