

Constructo 100

Article number: 10000308

Series: Constructo

Product description

With a capacity of **100 liters**, the **Constructo 100** is the ideal waste bin for busy environments. The capacity of the litter bin can even be increased to 120 liters by replacing the stainless steel inner bin with a plastic bag holder. In the case of planned peak traffic, for example during events, the capacity of the Constructo 100 can also be increased by adding an external plastic bag holder. The Constructo 100 litter bin features a robust stainless steel lock bar with a double locking mechanism and is **easy to empty**. The studs on the door panels prevent posters and stickers from being stuck to the panels of the bin.

Extra information

Material frame:

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)
