

Constructo 65

Article number: 10000927

Series: Constructo

Product description

The **Constructo 65** has the same base as the Constructo 50. This **robust** waste bin is **fully modular** so that all parts can be easily replaced. This also makes it possible to fit the bin with different panels. The Constructo 65 has a capacity of **65 liters**. The studs on the door panels prevent posters and stickers from being stuck on the panels of the waste bin. The Constructo 65 is optionally available with a plastic bag holder, providing a larger waste capacity. The bin can be closed which is useful in case of expected calamities. In addition, like the other waste bins in the series, the Constructo 65 is **easy to empty**. The Constructo 65 is fitted with a triangular lock as standard.

Extra information

Material frame:

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)

Materiaal panels
