

Constructo 200 with ash tray

Article number: 10001078

Series: Constructo

Product description

The **Constructo 200** combines a large 200-liter capacity with practical weather resistance. The wide canopy keeps the waste dry, so the bin is always **easy to empty**. As an extra, the Constructo 200 has an **integrated ash bin** in the top cover. The large insertion opening is fitted with an throw-in reducer. This prevents household waste or other large waste bags from being dumped. The bin also has a strong lock bar with **double locking**. The product is **fully modular**, allowing parts to be replaced individually. The studs on the door panels prevent posters and stickers from being stuck to the panels of the bin.

Extra information

Material frame:

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)

Material panels

[Steel, 2,5 mm, studded plate, hot-dip galvanized and two-layer powder coated 120 µm in RAL color of your choice, with piano hinge](#)
