

Constructo 240

Article number: 10000444

Series: Constructo

Product description

In environments where a lot of waste is generated, the **Constructo 240** stands its ground. This **litter bin** combines great **volume** with a distinctive design: tidiness is literally and figuratively very neat. The Constructo 240 can also be characterized as a **gentle giant**. **Robust and durable** on the one hand, user-friendly and economical on the other. The litter bin has a sturdy lock, is easy to empty, and gives less work in busy waste environments. The Constructo 240 is **completely modular**. Parts can therefore be replaced individually. This is also a nice **circular basis**. The studs on the door panels prevent posters and stickers from being stuck to the panels of the bin.
