

Constructo 102

Article number: 10001158

Series: Constructo II

Product description

The **Constructo 102** is a further development of the Constructo 100. The 102 has several advantages over the Constructo 100. The fasteners on the waste bin are no longer visible and the **opening is slanted inwards**. The latter prevents unnecessary waste from being deposited on the opening. The design is characterized by its more rounded shape and clean finish.

This litter bin, like its predecessor, is still known for its quality, **user-friendliness**, and **fully modular construction**. The Constructo 102 can be supplied with an optional ashtray in the hood or on the upright. This litter bin is available with a stainless steel inner bin or a plastic bag holder.

Extra information

Material frame:

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm [in RAL colour of your choice](#)
