

Constructo 72 with ashtray

Article number: 10001359

Series: Constructo II

Product description

The **Constructo 72 with ashtray litter bin** is the only round litter bin in the Constructo II series. The bin has **no visible frame**: visually, the base stands directly on the ground. A special base plate allows the Constructo to be mounted directly on concrete or asphalt. Like the other bins in this series, the Constructo 72 is extremely **robust**. This litter bin has an integrated ashtray in the hood.

The Constructo 72 is **completely modular**. As a result, all parts are individually replaceable. This immediately provides a good **circular basis**. This bin is available with a stainless steel inner bin or a plastic bag holder.
