

Column 240

Article number: 10000908

Series: Column

Product description

The **Column 240** is a bin that offers **maximum collection capacity**. Only an underground container offers more storage capacity. Despite this **large storage capacity**, the bin remains stylish to look at. It is an ideal litter bin for **busy environments** with many day-trippers and recreational users. In these places, a lot of waste can be combined with minimal inconvenience during emptying. This is because the waste falls into a **roll container**. This container can be replaced or emptied easily and quickly. The **quality** of this litter bin is in good order thanks to hot-dip galvanizing and two-layer powder coating. Finally, the Constructo 240 is also **fully modular**. This results in a **circular basis** for this product.

Characteristics:

- Large storage capacity
- Suitable for roll cages
- Fully modular construction
