

Plane Solid pouf (490)

Article number: 20001886

Series: Plane Solid

Product description

The Plane Solid pouf (490) is a special element in the Plane Solid series. This pouf is an asset for public spaces where many people come. The small bench is a great place to relax and enjoy. It adds cosiness to the public space. It is also a playful addition to the existing Solid series. The pouf is different from an ordinary bench and adds an extra dimension to the public space. It can be combined well with the other Plane Solid elements.

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating a few inches above the ground. This, and the rounded corners give these sturdy and robust benches a friendly look. Through craftsmanship and years of woodworking experience, the pouf appears to be made from a single piece of wood.

Materials

The pouf is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.
