A real Winterswijk bench!

The **'Wenters'** (dialect for Winterswijk) bench is a popular model. The bench was developed in 1998 for the redesign of the Winterswijk market. The first example can still be found in the same spot over **twenty years later**. The solid benches in this series are an **elegant** and **powerful** appearance. Its success is partly determined by the undulating and **ergonomic** shape of the seat. This shape ensures that the bench is wonderfully relaxed.
