

Natuur Comfort picnic table

Article number: 20002782

Series: Natuur Comfort

Product description

When designing and manufacturing the Nature Comfort series, we took the term 'pure nature' quite literally. The Nature Comfort series is made of FSC-certified Douglas wood from the forests of our partner Staatsbosbeheer. The series is characterized by its simple design. Thanks to a unique preservation process, visitors can enjoy it for years to come.

Nature Comfort picnic table, set and benches are suitable for any surface. They can be placed in nature reserves, but they certainly wouldn't look out of place in a village or city.

Characteristics

- Entirely out of wood
- Simplicity and beautiful details
- Suitable for any location

This unique furniture is the result of a collaboration between Staatsbosbeheer and Grijssen.
