

Plane Solid bench with backrest & planter

Article number: 20001383

Series: Plane Solid

Product description

The Plane Solid planter with a backrest offers both the possibility of **comfortable** seating and a beautiful solution for the **green decoration** of public spaces. Green gives the public space an extra atmosphere and has a positive influence on **biodiversity**. This planter of 100% FSC hardwood is suitable for plants and small trees. Because the planter is equipped with a **backrest**, it is very comfortable to sit on. In short, the ideal combination of sitting and green.

Features:

- Floating effect
- Additional seating comfort through the backrest
- Integrated planter

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating **a few inches above the ground**. This, and the rounded corners give these sturdy and robust benches a friendly look. Through **craftsmanship** and **years of** woodworking experience, the bench appears to be made from **a single piece of wood**.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Extra information

Material frame

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)

Length	2190 mm
