

Plane Solid Square bench

Article number: 20001381

Series: Plane Solid

Product description

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Plane Solid Square bench

The Plane Solid square bench is a special element in the Plane Solid series. This square bench is an asset to the public space where many people come. On the large bench, you can relax and enjoy. The square bench invites and adds **coziness** to the public space. It is also a **playful addition** to the existing Solid series. The square bench is different from an ordinary bench and provides an **extra dimension** in the public space. The square bench can be combined well with the other Plane Solid elements.

Features

- Floating effect
- Robust appearance
- Optically made of one piece of wood

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating a few inches above the ground. This, and the rounded corners give these sturdy and robust benches a friendly look. Through craftsmanship and years of woodworking experience, the bench appears to be made from a single piece of wood.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.
