

Plane Solid single seat with backrest

Article number: 20002668

Series: Plane Solid

Product description

This bench is a beautiful single-seater bench from the Plane Solid series. The **floating nature** of the bench is again well reflected in this bench. The bench, with its friendly **rounded corners**, invites you to sit on it. The design of the Plane Solid single-seater is beautifully proportioned due to its soft, solid shape. The bench is also equipped with a **backrest** for extra seating comfort. Like the bench, the backrest is made entirely of 100% FSC hardwood.

Features

- Floating effect
- Additional seating comfort through the backrest
- Robust appearance.

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating a few inches above the ground. This, and the rounded corners give these sturdy and robust benches a friendly look. Through craftsmanship and years of woodworking experience, the bench appears to be made from a single piece of wood.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.
