With the Plane Solid double seat, you can **efficiently furnish your public space**. The Plane Solid double seat is suitable for **locations where many people come**. Think of shopping malls and boulevards.

Features

- Floating effect
- Robust appearance
- Efficient filling of outdoor space

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating **a few inches above the ground**. This, and the rounded corners give these sturdy and robust benches a friendly look. Through **craftsmanship** and **years of** woodworking experience, the bench appears to be made from **a single piece of wood**.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Extra information

Length

2600 mm
