

Plane Plus single seat

Article number: 20001063

Series: Plane

Product description

With the Plane Plus single seat, the "plus" stands for an extra-wide base. The legs of the base cover almost the entire depth of the bench. Aesthetically, this provides an even more robust appearance. Furthermore, this 'plus bench' has the same characteristics as the other Plane benches. The combination of steel and wood gives a robust and warm appearance to public spaces. With this, the Plane plus single-seat fits into any environment.

Features

- Wide base
- Applicable in any outdoor space
- Robust design

Endless combination

The Plane single seat can be combined with the fifteen other variants of the Plane series. The design of the Plane is well thought out and the clever leg construction makes it possible to easily link several Plane benches together. This allows you to 'Endlessly combine'. Grijsen can also produce the Plane to order upon request.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.

Extra information

Length

2600 mm

Width

490 mm

Height from ground level

460 mm

Material seat surface

- FSC 100% hardwood untreated, durability class 1
- Alternative material seat surface: Preserved Dutch Douglas wood

Wood dimensions

90 mm x 120 mm
