

Plane single seat with comfort backrest

Article number: 20001066

Series: Plane

Product description

The Plane single seat with comfort backrest is a Plane bench with just a little more comfort. The bench has a backrest that is not perpendicular to the seating surface. By placing the backrest at an angle to the seat, rather than upright, a more comfortable bench is created. The focus with this Plane single seat comfort, as logical as it may sound, is on the bit of extra comfort.

Features

- Comfortable solid wood backrest
- Endless combination
- Applicable in any outdoor space

Endless combination

This Plane bench can be combined with the fifteen other variants of the Plane series. The design of the Plane is well thought out and the clever leg construction makes it possible to easily link several Plane benches together. This allows you to 'Endlessly combine'. Grijssen can also produce the Plane to order upon request.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.
