

Plane Plus single seat with comfort backrest A

Article number: 20001070

Series: Plane

Product description

The Plane Plus single seat with comfort backrest A is a bench with just a little more comfort. In this version, the backrest consists of three beams instead of one. This aesthetic difference gives the Plane bench a softer look. In addition, the base is wider than the Plane single seat with comfort backrest A. This ensures a robust and sturdy appearance.

Features

- Comfortable backrest
- Endless combination
- Extra-wide base

Endless combination

This Plane bench can be combined with the fifteen other variants of the Plane series. The design of the Plane is well thought out and the clever leg construction makes it possible to easily link several Plane benches together. This allows you to 'Endlessly combine'. Grijssen can also produce the Plane to order upon request.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of

untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested sustainably and responsibly.
