

Pure single seat (3000)

Article number: 20002267

Series: Pure

Product description

The Pure single seat is a bench with a **natural character**. Because the heart of the tree is still in the wood, there is always some cracking. This is part of the design and enhances the natural feel of the bench. The bench is therefore written on the body for **green, natural environments**, but is certainly not out of place in an urban environment.

The Pure is perhaps the most **honest bench series** from Grijssen. The bench is made from a **solid wood beam**. For the wood of the Pure Grijssen has deliberately chosen 100% FSC certified **domestic Douglas** trees from the forests of Staatsbosbeheer.

Features

- The stored CO₂ remains captured
- Made from FSC-certified native wood
- The natural look

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijssen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** remains captured. in the wood.

Material

The Douglas wood has had a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3.

Extra information**Length**

3000 mm

Width

350 mm

Height from ground level

460 mm

Material seat surface

Preserved Dutch douglas wood

Wood dimensions

350 mm x 350 mm

Material frame

Steel, 25 mm, hot-dip galvanized and two-layer powder coated 120 µm, [in RAL colour of your choice](#)

Weight excl. concrete base

210 kilogram

Installation:

- Below ground level
- Ground level fixing
