

Pure Eco square (1500)

Article number: 20002606

Series: Pure

Product description

A special variant within the Pure series is the Pure Eco square. This square pouf has a **very tough** and **robust appearance**. This is mainly due to the square shape. The Pure Eco square is made from the same type of wood as the Pure benches. Instead of one wood beam, as with the benches, the Pure consists of four wooden beams. Together these form a **square** pouf. Thanks to its shape and dimensions, the Pure Eco pouf offers **plenty of seating**. Visitors to the outdoor space can sit on all sides of the pouf. There is even room to lie down. The Pure Eco pouf is a **playful addition** to the Pure series. The pouf can be **combined** well with the benches in the series.

Features

- Tagged with NL Greenlabel A
- The stored CO₂ remains captured
- Frame made of corten steel

NL Greenlabel A

The Pure Eco Douglas is a unique series within the street furniture range of Grijssen. This series is **labeled with NL Greenlabel A**. This means that the seating meets the vision of NL Greenlabel and that the Pure Eco Douglas is **measurably sustainable** and has a **low ecological footprint**.

Material

The base of the outdoor bench is made entirely of corten steel. This pure type of steel has a rust-colored "oxide skin" that prevents oxygen from reaching the deeper-lying material. This slows down the rusting process and increases the lifespan. Also with the Pure pouf, Grijssen has deliberately chosen 100% FSC certified **domestic Douglas** trees from the forests of the Dutch Forestry Commission.

Extra information

Length	1460 mm
Width	1460 mm
Height from ground level	460 mm
Material seat surface	Preserved Dutch douglas wood
Wood dimensions	350 mm x 350 mm
Material frame	Corten steel, 25 mm
Linkable	No
Weight excl. concrete base	630 kilogram
Including concrete base	No
Installation	- at ground level - below ground level
