

Pure Eco single seat (1500)

Article number: 20002657

Series: Pure

Product description

The Pure Eco single seat (1500) is a bench with a **natural character**. The bench is a short version of the Pure single seat. To be precise, this bench has half the length. This bench is, therefore, suitable for places where there is less space available. Because the heart of the tree is still in the wood, there is always some cracking. This is part of the design and enhances the natural feel of the bench.

Features

- The natural look
- The stored CO₂ remains captured
- Made from FSC-certified native wood

Staatsbosbeheer

For Staatsbosbeheer, **sustainable harvesting** is, in addition to **protection and experience**, a form of utilization. The cooperation with Grijzen gives this wood a useful application in the form of the Pure benches and it will last for years. The **stored CO₂** remains captured. in the wood.

Material

The Douglas wood has had a special preservation process. This is based on vacuum pressure, whereby ingredients are used that come from nature and are 95% mineral-based. The impregnated elements have increased durability and therefore belong to durability class 2/3. The base of the outdoor bench is made entirely of corten steel. This pure type of steel has a rust-colored "oxide skin" that prevents oxygen from reaching the deeper-lying material. This slows down the rusting process and increases the lifespan.

Extra information

Length	1450 mm
Width	350 mm
Height from ground level	460 mm
Material seat surface	Preserved Dutch douglas wood
Wood dimensions	350 mm x 350 mm
Material frame	Steel, 25 mm, hot-dip galvanized and two-layer powder coated 120 µm in RAL color of your choice
Linkable	No
Weight excl. concrete base	100 kilogram
Including concrete base	No
Installation:	- Below ground level - Ground level fixing
