

Wenters double seat with backrest (steel)

Article number: 20000005

Series: Wenters

Product description

The distinctive feature of the Wenters double-seater is the extra large and wavy seating surface. On this bench, one can sit on both sides. This makes the bench ideal for squares, shopping areas, and other busy locations.

Features

- Ergonomic design
- Efficient filling of outdoor space
- A real Winterswijk bench!

A real Winterswijk bench!

The '**Wenters**' (dialect for Winterswijk) bench is a popular model. The bench was developed in 1998 for the redesign of the Winterswijk market. The first example can still be found in the same spot over **twenty years later**. The solid benches in this series are an **elegant** and **powerful** appearance. Its success is partly determined by the undulating and **ergonomic** shape of the seat. This shape ensures that the bench is wonderfully relaxed.

Materials

The steel version of the bench has a transparent and modern appearance due to the use of reclining bars. The bench is quickly dry after rain because rainwater does not remain on the furniture. The steel is hot-dip galvanized and two-layer

powder coated in a RAL color of your choice.

Extra information

Length

2260 mm

(Length variable due to coupling option)

Width

1237 mm

Height from ground level

874 mm
