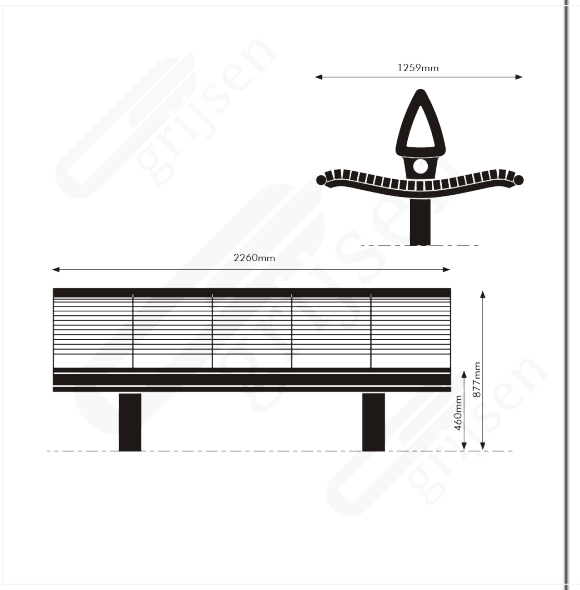
PRODUCT SPECIFICATION SHEET

Wenters double seat with backrest (wood/steel)

Article number: 20001469

Series: Wenters



Product description

Wood or steel? Sometimes it's hard to choose. With this Wenters double seat, there is no need to make a choice. This bench consists of two 100% FSC hardwood seats combined with a steel backrest. A unique, contemporary combination that has both a modern and warm appearance. A special asset for your public space.

Features

- Additional seating comfort through the backrest
- Efficient filling of outdoor space
- A real Winterswijk bench!

A real Winterswijk bench!

The **'Wenters'** (dialect for Winterswijk) bench is a popular model. The bench was developed in 1998 for the redesign of the Winterswijk market. The first example can still be found in the same spot over **twenty years later**. The solid benches in this series are an **elegant** and **powerful** appearance. Its success is partly determined by the undulating and **ergonomic** shape of the seat. This shape ensures that the bench is wonderfully relaxed.

Materials

This Wenters bench is made with 100% FSC hardwood, giving it a warm and natural look. The undulating character of the seating surface has also been preserved in this wooden bench. Thanks to this seating surface and backrest, one can sit comfortably. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice.
